Total Equity ¹	583.3	326.8	78.5

Operational Highlights

- Completed Well-12 and Well-13.
- Production and refining:
 - Crude oil production of 8,544 bbl/d up 97.5% (H1 2022: 4,327 bbl/d)
 - Gas production of 23.0 mmscfd (4,067 boepd) up by 6.6% to 21.6 mmscfd (3,814 boepd) as at H1 2022
 - Refined petroleum products sold 57.0 mmlitres up by 19.6% (H1 2022: 47.7 mmlitres)
- Average realised oil price per barrel of \$74.6; there were no crude sales in H1 2022.
- Average realised gas price per mscf of \$2.1, up 16.7% year-on-year (H1 2022: \$1.8)
- Underlying cash operating cost (boe) of \$17, down 29.2% year-on-year (H1 2022: \$24)
- 18 years of continuous production.

The Chief Executive Officer/Managing Director, Mr Adegbite Falade, comments:

“Aradel Holdings consolidated on the gains arising from the initiatives it embarked on in the second half of 2022. Revenues, Operating Profit, EBITDA, Profit After Tax and free cash flows increased significantly over the prior period, mainly because the Company has begun to benefit from executing the plans crafted to ensure optimum production and refining.

The Alternative Crude Oil Evacuation (ACE) project was a significant value driver for our operations in the first half of the year: after a slow start in the first quarter of 2023 (lifting ~100kbbls), the Company was able to transport 400kbbls through the ACE in the first half

of 2023, as we sought approaches which ensured that production was not significantly curtailed during the period. These initiatives also resulted in an increased refining capacity of 35%, the improved outcome mainly due to the debottlenecking exercises completed in quarter four of 2022.

We completed the drilling of Well-12 and Well-13, both with promising results, and expect to spud Well-14 in the third quarter of 2023. The completed wells are poised to add to our crude oil and gas production, underscoring our standing promise to increase value-creation for our shareholders.

These positive outcomes are expected to lead to increased value for the Company, its shareholders, and the country, even as we believe that they will hold (and be improved upon) till the end of the financial year”.

Financial Review

Revenue increased by 217.6% to ₦74.5 billion (H1 2022: ₦23.5 billion). This was driven by:

- Crude oil revenue (53.2% of total revenue) of ₦6 billion (H1 2022: Nil; 0% of total), due to increased availability of the Trans Niger Pipeline (TNP), as well as operationalising the ACE.
- 5% increase in gas revenue (4.9% of total) to ₦3.7 billion (H1 2022: ₦2.8 billion; 12.2% of total revenue), reflecting increased production volumes and higher realised price.
- 6% increase in refined products (41.9% of total) to ₦31.2 billion (H1 2022: ₦20.6 billion; 87.8% of total revenue), due to increased sales volumes of 57.0 mmlitres up by 19.6% (H1 2022: 47.7 mmlitres).
- Average realised price/bbl from crude oil operations (refining plus crude export) was US\$/100.8bbl.

Cost of sales (COS) increased by 78.8% to ₦24.7 billion (H1 2022: ₦13.8 billion), mainly due to:

- Crude Handling Charges (30.8% of COS) increased by 562.7% to N6 billion (H1 2022: N1.1 billion) arising from increased activity levels across the TNP and ACE operations.

- Depreciation (40.8% of COS) increased by 47.7% to ₦1 billion (H1 2022: ₦6.8 billion) due to additions to assets during the year despite a lower depletion rate of 8% (H1 2022: 9%). The lower depletion rate of 8% was due to the switch to 2P (Proven and Probable) reserves.
- Royalties (15.5% of COS) increased by 35.9% to ₦8 billion (H1 2022: ₦2.8 billion) arising from higher production in H1 2023 compared to H1 2022 and higher prices.

Gross profit increased to ₦49.8 billion (H1 2022: ₦9.6 billion) and resulted in an **operating profit** of ₦29.8 billion (H1 2022: ₦5.1 billion). There was a decline of 66.3% in other income ₦0.07 billion (H1 2022: ₦0.23 billion) due to exchange losses recorded from fluctuations in foreign exchange (FX) rates.

General and Administrative (G&A) expenses increased by 324.3% to ₦20.0 billion (H1 2022: ₦4.7 billion)

- The major driver was the recognition of exchange loss (66.7% of G&A expenses) which increased by 100% to ₦4 billion (H1 2022: Nil) arising from the devaluation of the Naira at the end of June 2023.
- Other expenses (2.7% of G&A expenses) which comprise fair value movement on crude oil hedge and community-related expenses, increased by 117.7% to ₦0 billion (H1 2022: ₦0.46 billion).
- Permits and subscriptions (2.2% of G&A expenses) increased to ₦43 billion, up 439.3% year-on-year (H1 2022: ₦0.98 billion) due to statutory license renewal emanating from the onset of the Petroleum Industry Act (PIA) and ongoing drilling activities.

Finance cost increased by 342.6% to ₦5.5 billion (H1 2022: ₦1.2 billion) driven by ₦0.7 coupon payment on Bonds and an increase in interest expense of ₦2.6 billion due to additional borrowings in H1 2023 and ₦1.0 billion increase in provisions for the unwinding of discounts. **Finance Income** increased by 606.6% to ₦1.7 billion (Q1 2022: ₦0.25 billion).

Profit before tax of ₦27.9 billion, up by 269% year-on-year (H1 2022: Loss ₦7.5 billion). **Income tax expense** estimate of ₦14.7 billion.

Profit after tax increased by 173.9% to ₦13.1 billion (H1 2022: ₦4.8 billion).

Year-to-date growth in **total assets** of 73.7% to ₦822.1 billion (FY 2022: ₦473.4 billion)

driven by

- Rise in property plant and equipment of 75.6% to ₦7 billion (FY 2022: ₦223.7 billion). This was impacted mainly by higher FX rates and increased capital expenditure.
- Increase in investment in associate - ND Western - assets to ₦5 billion, up 73.9% year-to-date (FY 2022: ₦132.5 billion) due to share of profit and other comprehensive income for the period.
- Increase in financial assets by 153.3% during H1 2023 to ₦6 billion (FY 2022: ₦2.2 billion). This growth was driven by additional crude oil hedges - increasing total crude oil hedges to August 2024 - by 385.3% to ₦1.7 billion (FY 2022: ₦0.3 billion), as well as a rise in the fair value of available-for-sale securities by ₦2.0 billion to ₦3.8 billion (FY 2022: ₦1.8 billion).

Total liabilities rose by 62.9% to ₦238.8 billion (FY 2022: ₦146.6 billion) mainly due to the ₦10 billion Bond raised and an additional \$10 million facility in H1 2023. The naira devaluation in June 2022 also resulted in a substantial increase in translation differenc

Total equity increased by 78.5% to ₦583.3 billion (FY 2022: ₦326.8 billion) mainly due to the increase in translation reserve from the devaluation of the naira, as well as the retention of total comprehensive income over the period.

Cash flows from operating activities

The Company generated cash flows from operations of ₦55.7 billion in H1 2023, an increase of 175.2% (H1 2022: ₦20.2 billion), and net cash flows from operating activities of ₦55.1 billion was also up 182.0% (H1 2022: ₦19.5 billion).

Cash flows from investing activities

Net cash flows used in investing activities was ₦14.8 billion, up 472.8% (H1 2022: ₦2.6 billion). This increase is mainly driven by a higher capital expenditure of ₦14.1 billion year-to-date (H1 2022: ₦3.0 billion) due to the ongoing 4-well drilling campaign in H1 2023.

Other Financing Updates

Aradel Holdings Plc Reports Revenues of ₦74.5 billion in the first half of 2023, up 217.6% year-on-year.

- The Company drew down \$10 million in June 2023 from its existing \$120 million Field Development Facility (FDF) obtained in March 2022. This was to fund the ongoing Ogbale Field Development campaign.
- The Company secured a ₦10 billion Bond Issue in December 2022, part of a ₦20 billion bond series. The proceeds from the issue will be utilised in funding critical NGN-denominated projects. The Bond Issue was 3.18% oversubscribed, and proceeds were received by the Company in January 2023.

mscf - one thousand standard cubic feet

Aradel Holdings Plc Reports Revenues of ₦74.5 billion in the first half of 2023, up 217.6% year-on-year.

boe - Barrel of oil equivalent

bbls/d - barrels per day

Notes to editors

Aradel Holdings Plc (formerly known as Niger Delta Exploration & Production Plc), “Aradel” or “the Company” is the first fully, integrated energy Company in Nigeria with interests in multiple oil and gas assets. The Company was incorporated on March 25, 1992 (as the Midas Drilling Fund), changed its name to Niger Delta Exploration and Production Plc in November 1996, and assumed its current name in May 2023.

Aradel Holdings’ unique offerings incorporate the full spectrum of the energy industry, encompassing exploration, production, refining, and distribution. The Group’s shares are traded on the National Association of Securities Dealers (NASD) Over the Counter (OTC) Securities Exchange under the ticker symbol, SDNDEP, and our bonds are traded on FMDQ Exchange under the ticker symbol [SDNDEP](#)

The Company operates through its subsidiaries and an affiliate company:

- Aradel Energy Ltd (100%) is a wholly owned subsidiary of Aradel Holdings, as well as the Operator of the Ogbele Joint Venture.
- Aradel Gas Ltd (100%), a wholly owned subsidiary established to pursue investment opportunities in the gas sector.
- Aradel Investments Ltd (100%), also a wholly owned subsidiary established to pursue NDEP’s property interests.

- Aradel Refineries Ltd (95%)., an independent operating midstream entity, underscoring NDEP's commitment to attaining Energy Independence in Nigeria.
- ND Western Ltd (41.67%) is a consortium of four companies: Niger Delta Petroleum Resources Ltd., Petrolin Group, First Exploration & Petroleum Development Company Ltd., and Waltersmith Petroman Oil Ltd.

Forward looking statements

Certain statements in this document may constitute forward-looking information or forward-looking statements under applicable Nigerian securities law (collectively "forward-looking statements"). Forward-looking statements are statements that relate to future events, including the Company's future performance, opportunities, or business prospects. Any statements that express or involve discussions with respect to expectations, forecasts, assumptions, objectives, beliefs, projections, plans, guidance, predictions, future events or performance (often, but not always, identified by words such as "believes", "seeks", "anticipates", "expects", "continues", "may", "projects", "estimates", "forecasts", "pending", "intends", "plans", "could", "might", "should", "will", "would have" or similar words suggesting future outcomes) are not statements of historical fact and may be forward-looking statements.

By their nature, forward-looking statements involve assumptions, inherent risks and uncertainties, many of which are difficult to predict, and are usually beyond the control of management, that could cause actual results to be materially different from those expressed by these forward-looking statements. Undue reliance should not be placed on these forward-looking statements because the Company cannot assure that the forward-looking statements will prove to be correct. As forward-looking information address future conditions and events, they could involve risks and uncertainties including, but are not limited to, risk with respect to general economic conditions, regulations and taxes, civil unrest, corporate
